

# Matheus Braga

## Frontend Developer

TypeScript | Vue.js & Nuxt.js | React & Next.js

Frontend Developer with experience building responsive and dynamic web applications, including e-commerce platforms, dashboards, and internal systems. I work with React, Vue.js, JavaScript, and TypeScript, creating scalable interfaces and reusable components with a focus on performance, code organization, and user experience.

## Work Experience

### Frontend Developer

Nerau | Remote | Jul 2026 - Present

- Working on the development and maintenance of institutional websites and e-commerce platforms, with a focus on frontend development using WordPress, PHP, JavaScript, HTML, and CSS to implement new features, resolve bugs, and improve performance across client projects.
- Collaborate with designers, project managers, and developers to deliver scalable, high-quality digital solutions.
- Implementation and maintenance of online stores on platforms such as Shopify and increazy.

### Frontend Developer

increazy | Remote | Mar 2024 - Jun 2026

- Worked on the development and maintenance of web applications focused on e-commerce, marketing pages, administrative dashboards, and the company's internal CMS.
- Developed new features and interfaces with a focus on performance, responsiveness, user experience, and maintainable code.
- Created reusable components and standardized frontend structures to ensure visual consistency and scalability across different projects.
- Participated in technical decisions related to frontend architecture, code organization, application structure, and business rule implementation.
- Integrated and consumed APIs for communication between frontend and backend systems.
- Collaborated directly with different teams to understand requirements, gather project needs, and define solutions for new features.
- Contributed to frontend performance improvements, including optimizations focused on PageSpeed and Core Web Vitals metrics.

**Frontend Developer Freelancer**

Remote | 2024 - Present

- Developed custom web applications and interfaces for small businesses and independent projects.
- Built responsive frontend solutions using React, Vue.js, JavaScript, and TypeScript, with a focus on usability, code organization, and maintainability.
- Worked directly with clients to gather requirements, define project scope, align expectations, and deliver solutions tailored to each project's needs.
- Integrated APIs and developed dynamic features for different types of web applications.

## Skills

**Frontend**

TypeScript
JavaScript (ES6+)
React
Next.js
Vue.js
Nuxt.js

**UI & Styling**

HTML5
CSS3
Tailwind
shadcn/ui
Bootstrap

**Tools & Workflow**

Git
GitHub
VS Code
REST APIs
Figma
Docusaurus
Canva

**Concepts**

Responsive Design
Component-Based Architecture
Frontend Performance
API Integration
Code Maintainability

## Learning & Certifications

**Responsive Web Design**

Aug 2023 | freeCodeCamp

**JavaScript Algorithms and Data Structures**

Mar 2025 | freeCodeCamp

**Learn React**

Jan 2026 | Scrimba
