Work Experience

Frontend Developer
Nerau | Remote | Jul 2026 - Present

- Build and maintain websites with HTML, CSS, Tailwind, Twig, JavaScript and TypeScript, plus WordPress when needed
- Implement and maintain e-commerce stores (PWAs) on the increazy platform
- Develop and customize Shopify stores and themes with Liquid
- Ship new features, fix bugs and improve performance across client projects
- Collaborate with designers, project managers and developers

Frontend Developer
increazy | Remote | Mar 2024 - Jun 2026

- Built and maintained headless e-commerce stores as Progressive Web Apps (PWAs) with CMS integrations, using JavaScript, Twig, HTML and CSS
- Developed features for the platform's dashboard with Vue.js, Nuxt.js, TypeScript, Pinia, i18n and SCSS
- Created reusable components and standardized frontend structures across projects
- Improved frontend performance with a focus on PageSpeed and Core Web Vitals
- Integrated REST APIs and took part in decisions on frontend architecture and code organization
- Worked directly with other teams to gather requirements and define solutions for new features

Projects

Stox — stox.app.br

Live SaaS for car dealerships: public vehicle showcase and inventory management dashboard with subscription plans, authentication, protected routes and plan limits validated on the server.
Stack: Next.js (App Router), React, TypeScript, Tailwind CSS, shadcn/ui

Ô Jardim — ojardimaromas.com.br

Website, price catalog and admin panel (production, inventory, orders and cash flow) for a family business. Responsible for all of its technology.
Stack: React, TypeScript, Vite, Tailwind CSS, Vercel

MerryGo — github.com/matheus-braga6/merrygo

Lightweight, dependency-free carousel library published on npm and used in production in Stox.
Stack: Vanilla JavaScript, HTML, CSS
